

# CARRIER ROOM AIR PURIFIER

Cutting-edge technology designed to provide clean air, everyday.

# WE ARE CARRIER

As global providers of sustainable cooling and refrigeration solutions, we're committed to making world safer and more comfortable for generations to come. We are innovators at heart and inventors by heritage. We have always led in pioneering new technologies and in enabling entirely new industries, that have changed the world.

Today, building on our history of firsts, we're boldly advancing the industries we created to make a difference in people's lives.

## AN AIR PURIFIER RANGE DESIGNED TO ENHANCE THE WAY YOU LIVE

On an average, people spend 90% of their time indoors. Poor ventilation and indoor air quality can cause health problems.

1. Indoor smoke contains a range of health-damaging pollutants, such as small particles and carbon monoxide. In fact, particulate pollution levels may be 20 times higher than accepted guideline values.
2. Household air pollution causes several diseases, including pollen allergies, stroke, heart diseases, Chronic Obstructive Pulmonary Disease (COPD) and even lung cancer.

### The Advanced Hybrid-Structured Fan

Our air purifiers provides stronger inhalation and wider air distribution.

# WHY WE NEED AN AIR PURIFIER?

On an average, we spend more than 90% of our time indoors. However, indoor air is often more polluted than the air outside. Contaminants like dust, dander, pollen, and other particles can make the air inside your home more polluted than you imagine—maybe even more polluted than outdoor air.\*

Carrier's Room Air Purifiers can filter out pollutants, so you and your family can breathe cleaner air.

## High grade H13 filter

Air purification by 5 steps

## FEATURES

### 18-stage fan speed control

The customer oriented 18-stage fan speed helps to adjust the fan control upon room air condition.

### Turbo Mode

The customer selected Turbo Operation helps to cleanse the indoor polluted air speedily

### Antibacterial function

The copper fiber and zinc oxide included functional filter, helps to eliminate the 5 major gases and purify the air

### Wheels for easy moving

The wheels on the bottom of product can help to move the unit safely and easily.

## Real-time Indoor Air Quality monitoring

The indoor air quality indicator displays the indoor air quality level by measuring the amount of dust and gas.

## TECHNICAL SPECIFICATIONS

Cleanses intelligently, to breathe healthier air

Model		KLAR18S	KLAR23S
Clean Air Delivery Rate (CFM)	Smoke	275	378
	Dust	285	387
	Pollen	341	431
Noise Level dB (A) (Min / Max)		35/49	35/53
Coverage Area ( m <sup>2</sup> )		60	80
Power consumption (W)		28	39
Power Supply (V/Ph/Hz)		220 -240V, 50/60Hz	
Motor Type		BLDC	
Sensors		PM2.5 / TVOC	
Fan speed		18 stages	
Filters	Pre filter		
	H13 grade HEPA filter		
	Deodorization filter (Corrugate Type)		
Air Quality indicator		PM2.5 data + LED color display(Gas / TVOC PM2.5)	
Dimension (mm) (WxHxD)		350 x 675 x 350	350 x 800 x 350
Weight (Kg)		10.8	12.1
